

AMAZONAS MADERA

Hammock not included

In the garden or when camping: You are always able to find ONE tree or ONE wall of a house, only a second appropriate hanging point is often lacking. To address this, we have for years been producing the amazing solution that is Madera: The ashwood stand is anchored in the ground with a ground peg – voilà, the second tree is ready and the hammock can be hung up.

Madera can be easily dismantled without screws, reducing packing volume when camping. Easy system, perfect stability!
