CARRY

1 AIRSPEED™ SUSPENSION

- + LightWire™ alloy frame creates low profile air space, optimizing pack balance and ventilation

2 AIRSPEED™ SUSPENSION BACKPANEL

- + 3D-tensioned breathable mesh backpanel ensures supportive fit

3 SPACERMESH HARNESS

- + Sewn-in spacermesh
- + Mesh-covered ventilated die-cut foam
- + Adjustable sternum strap with safety whistle
- + Multiple torso size options with torso adjustability

4 SPACERMESH SEWN-IN HIPBELT

- + Zippered stretch mesh hipbelt pockets
- + ErgoPull™ hipbelt closure with hipbelts directly connect to backpanel mesh
- + Seamless lumbar to hipbelt body wrap

SIZING / FIT

STRATOS - MEN'S SIZING

S/M 16-20" / 41-51 cm

M/L 19-23" / 48-58 cm

SIRRUS - WOMEN'S SIZING

WXS/S 13-17" / 33-43 cm

WS/M 16-20" / 41-51 cm

WOMEN'S SPECIFIC FIT

- + The unique suspended mesh located on the shoulders, backpanel, lumbar and hipbelt contour to a wide variety of body shapes and sizes to create a custom fit to your body.
- + The pack shape is narrower and deeper, allowing greater freedom of movement and increases stabilization by lowering the position of the load to a woman's center of gravity.
- + The shoulder harness is designed with different curves to create an anatomical fit for a woman's neck, shoulders and chest.
- + Women's hips are conically shaped with a larger difference between the waist and hip measurements. The hipbelts are shaped and angled to accommodate this difference, which allows a more comfortable load transfer and support.

HARNESS FIT

The harness straps should wrap fully around your shoulders with no gaps between the pack and your back. The padded part of the harness straps should end 1"/2.5 cm - 2"/5 cm below the armpits and the sternum strap adjusted to approximately 2"/5 cm below the collarbone.

FEATURE DETAILS

ADJUSTABLE HARNESS 50L / 36L / 34L / 24L

To adjust for various torso lengths loosen the load lifter straps at the top of the harness, slide hand between backpanel and harness to release hook and loop attachment and slide harness into position using arrows to guide. Firmly press on backpanel to reengage hook and loop attachment.

INTERNAL RESERVOIR SLEEVE 50L / 36L / 34L / 24L

Place reservoir inside sleeve to help ensure proper pack weight distribution. Clip reservoir to buckled loop to keep upright.

INTEGRATED RAINCOVER 50L / 36L / 34L / 24L

The integrated, removable raincover provides protection in adverse weather conditions.

- A Locate the raincover icon near the base of the pack and unzip the raincover compartment.
- B Pull the raincover from the compartment and place over the top and bottom of pack using the peripheral elastic to hold it in place.
- C Reverse this process to return raincover to compartment.
- D To remove the raincover altogether, unfasten the toggle from the cord loop and remove.

Note: To prevent mildew allow the raincover to dry entirely before storing.

SLEEPING BAG COMPARTMENT 50L / 36L / 34L

Lower zippered compartment for dedicated sleeping bag storage. The bellowed divider allows full utilization of the pack's volume when sleeping bags aren't carried.

FEATURE DETAILS

REMOVABLE SLEEPING PAD STRAPS

50L / 36L / 34L

Removable sleeping pad straps for external attachment.

- A Unclip the two sleeping pad strap buckles
- B Remove the webbing from the triglide at the base of the pack
- C Reverse to reattach

UPPER SIDE COMPRESSION STRAPS

50L / 36L / 34L / 26L

Side compression straps with quick release buckles compress and stabilize loads for optimal carry and can be used to secure items to side of pack.

SINGLE TOOL ATTACHMENT

50L / 36L / 34L / 24L

Single ice tool loops provide secure storage for a mountaineering axe.

- A Slide the tool shaft through the top of the ice tool loop and flip the shaft up toward the top of the pack
- B Loosen the bungee cord lock and route the tool handle through the bungee and tighten
- C Reverse the process to remove

STOW-ON-THE-GO TREKKING POLE ATTACHMENT

50L / 36L / 34L / 24L

Osprey's Stow-on-the-Go™ trekking pole attachment is designed to quickly attach and carry trekking poles while wearing a pack.

- A Locate the elasticized loop on the lower left side of pack. While pulling the loop out from the pack, insert the basket end of the trekking poles into the loop.
- B On the left harness strap locate the trekking pole icon. Pull up on the cord to open, place pole handles in the loop and tighten with the cord lock to secure.
- C Reverse these steps to remove the trekking poles.
